# Breaking the Ceiling

The distance between you and your destiny is in your MIND. We are established in the earth with a PURPOSE attached to our every breathe.

## Founders Prayer

Dear Heavenly Father

I come to you asking on behalf of my brothers and sisters of this region that you break the ceiling of limitation, oppression, lowered confidence and lack. Expose your greatness that lives on the inside of us! Open the eyes and hearts of all to see that the sky is the limit. Anything is possible if we believe and seek your guidance. Thank you for providing the resources, people and focus needed to achieve all assignments attached to our hands. We are successful and powerful by the faith that worketh through us. We can do ANYTHING we set our mind to, according to your will for our lives. Build us where we are weak and strengthen our minds through your spirit. Under your guidance we will move in EXCELLENCE—In Jesus Name Amen.

## A Time To Refocus and Reflect

In a world where it is easy to develop a routine of work, home and church— A world where the pathway to success is often hidden in the minds of those of achievement due to selfishness, siloed lives and lack of involvement— A world where we can lose sight of our personal identity and life's destination. It is the prayer of NC Ladies Night, Leading Lights Social Club Founder, Ms. Ashley Armstrong that GOD break the mental ceiling of the people in this region. We are more than capable to enjoy life to the fullest and reach heights in our career and personal life's journey beyond our greatest imagination. Our purpose and unique gifts are given to us as a benefit to others. As this group of successful like-minded ladies assemble, we are to build each other up to continue to be a light in the world assigned to our lives. For a purpose GREATER THAN SELF—it is our souls responsibility to love, empower one another and raise a generation of Successful Powerful People.

**#ForeverMovingForward**

## About Us

NC Ladies Night—Leading Lights Social Club (NCLN), established January 2019- An organization of successful like minded women placing our self back at the forefront of our life's as we refocus on our destiny and purpose. This group of ladies has been assembled to uplift all associated through empowerment, support and love; to grow in purpose and support the shifting of the social atmosphere in our region. As we operate in our daily lives we present all assignments in excellence, so that through observation generations to come will have role models for navigating life successfully. As a collaboration of many talents, we support each other in pressing towards our destiny while pulling others through positive social interaction and support. Members of NCLN not only make strides in their personal journey of growth but provide a light for others to see how successful people operate. In addressing the social climate, NCLN positively interact amongst each other and within our community. In supporting our community, NCLN provides external support to our senior citizens and other underserved community, give back to our youth, provide personal growth and empowerment seminars, host upscale events open for public participation and an array of other uplifting projects.

Our youth must see how successful people operate in all areas of life from education, career development to entertainment and socialization. We are to shift the atmosphere and move forward to our destiny with Purpose and Class for the upbuilding and uplifting of our culture and future leaders
